Annexure-C (Proposed changes in existing Mobile Tower policy of the State)

DoT, Gol guidelines for issue of Clearance for installation of Mobile Towers	Response of the State IT Department	
 A. Documents to be submitted by Telecom Service Providers/ Infrastructure providers: 1. Copy of Access Service License / Infrastructure Provider Registration Certificate from Department of Telecommunications. 2. Copy of Standing Advisory Committee for Frequency Allocation (SACFA) clearance for the said location issued by Wireless Planning Commission (WPC) Wing of Department of Telecom. [Telecom Enforcement, Resource and Monitoring (TERM) cells certification for installation of towers as getting clearance from SACFA takes little long time.] 3. Other clearance at State / local authority level: Copy of the type test certificate issued by Automotive Research Association of India (ARAI) to the manufacturers of the Diesel Generator (DG) Sets [The DG sets used shall be as per the provisions under Environment (Protection) Act 1986 & noise pollution(Regulation & control) Rule 2000 as amended from time to time]. 	 Proposed to be added in the Policy: Copy of Access Service License / Infrastructure Provider Registration Certificate from Department of Telecommunications. Already exists in Mobile Tower Policy of the State Already exists in Mobile Tower Policy of the State Other clearance at State / local authority level: Proposed to be added in the Policy: "Copy of the type test certificate issued by Automotive Research Association of India (ARAI) to the manufacturers of the Diesel Generator (DG) Sets [The DG sets used shall be as per the provisions under Environment (Protection) Act 1986 & noise pollution(Regulation & control) Rule 2000 as 	

		amended from time to time]."		
	Copy of clearance from Fire Safety Department only in case for high rise buildings where Fire Clearance is mandatory	 Copy of clearance from Fire Safety Department to be taker for towers proposed to be erected in habitations 		
	For forest protected areas, the copy of clearance from State Environment & Forest Dept., if applicable.	iii. Clearance from State Forest Department needs to be taken in case Tower is to be erected on forest land		
	iv. Copy of No Objection Certificate (NOC) from Building Owner	iv. Already exists in the Policy: "Affidavit from the owner of the land/ building containing his consent along with proof of ownership"		
В.	BTS Tower Details	Proposed to be added in the Policy:		
	 Data Sheet Name of Service Provider/ Infrastructure Provider Location Tower reference: Height, II) Weight, III) Ground/ Roof Top, IV) Number of Antennas planned on tower 	 Data Sheet Name of Service Provider/ Infrastructure Provider Location Tower reference: Height, ii) Weight, iii) Ground/ Roof Top, iv) Number of Antennas planned on tower 		
	 Copy of structural stability certificate for ground based BTS OR In case of roof top BTS towers, structural stability certificate for the building based on written approvals of any authorized Structural Engineer of state/local bodies/Central Building Research Institute (CBRI), Roorkee/ IIT/NIT or any other agency authorized by local body 	2. Copy of structural stability certificate for ground based BTS OR In case of roof top BTS towers, structural stability certificate for the building (including structural design of tower to be erected on that building) based on written approvals of authorised Chartered Structural Engineer (local bodies), Central Building Institute (CBRI), Roorkee or reputed Engineering College like IIT, NIT etc. or any other agency authorized by local body		
С.	Safety/ Precautionary Provisions: i. In case of both ground based towers & roof top towers, there shall be no nearby buildings right in front of the antenna with height comparable to the lowest antenna on tower at a distance threshold as specified below:: Number of Multiple antennas in the same direction Safety/ Precautionary Provisions: Buildings right Building/Structu re distance from the antenna (safe distance) (in mtrs)	Proposed to be added in the Policy: i. The Telecom Operators proposed to add following clause in place of the table: <i>"Telecom Service Providers to</i>		

	1	20		adhere to DOT guidelines."
	2	35		
	4	45		
	6	55		
×	Alternatively, operators need to establish/ certify that all General public areas are within safe EMF exposure limits as per actual peak traffic measurements after the antenna(s) start radiating.		11.	This clause need to be added in
ü.	Wall Mounted/ Po Antenna	le Mounted		the Policy
	a) The antenna m	nounted on pole		
	should be at le	ast 5 metre		
	above ground	level /road level		
	on flyovers.			
	b) No residential	/office/work		
	place is direct	y in front of the		
	wall/pole ante	nna at a height		· · · ·
	comparable to	o the antenna as		
	per para c(ii) a			
	1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 -			
	(Note: Calcula	tion of safe		* 1
		d on Maximum		
	20 watt RF po	wer radiated		
	from the ante	nna)		
				Additional point proposed to be added: "In case of roof top towers with multiple antennas, the roof top usage desirable to be totally restricted, i.e., not accessible for general purpose use. Similarly, efforts should be made to avoid BTS Antennas in narrow lanes <= 5 mtrs"
D. P	Points relevant to Sta Administrative Autho	nte/ Local prities		
,	 Nominal one tim Fee as may be de State Governmen costs on the issu for installation o 	e Administrative acided by the nt to recover its e of permission	I.	Already defined in the Policy
	ii. Telecom Towers infrastructure st	have been given atus by ndia vide gazette 1 dated benefits, as rastructure be extended. ection may be	11.	Infrastructure status not given to the Telecom Towers till date. However, timelines have been proposed to be added in the Policy for providing electrical connections. "HPSEB would provide electrical connection for energizing a tower within 30 days if the location of tower is less than 50 meters from existing 3-phase La supply network, on receipt of a

ili. Formation of State and District **Telecom** Committees Keeping public interest in view, there is a need of regular interactions between TERM Cell of DOT and State / District administration under District Collector. Hence it is proposed to Set-up State and District Telecom Committees for review of all Telecom Infrastructure related issues at State/ District Level consisting of officers from TERM Cells, State/District Administration and the concerned Telecom Service Provider(s).

iv. Telecom installations are lifeline installations and a critical infrastructure in mobile communication. In order to avoid disruption in mobile communication, an essential service, sealing of BTS towers/disconnection of electricity may not be resorted without the consent of the respective TERM Cell of DoT formal application and completion of codal formalities by the concerned Telecom Operator in the concerned Sub Division of HPSEB subject to the

following conditions: i. Load is available from the existing distribution transformer

ii. 3-phase LT is already there"

Already proposed to be added in the Policy

III.

- There are two scenarios envisaged in the proposed policy for disconnection of electricity:
 - a. Telecom Service Provider would deposit annual rental fee within the timeframe defined in the demand note issued by the rural/ urban local body failing which penalty @5% per week, of the annual rental/ renewal fees, should be imposed for the delayed period. However, if the payment is delayed for more than two months, the rural/ urban local body may ask HPSEBL to cut power supply to that particular tower for which dues are pending.
 - b. The TERM Cell of DOT at State level would conduct regular auditing and monitoring of EMR as per their guidelines of Gol and also provide the State Government with a copy of
